

Participant instructions

If you have questions or technical problems at any point during the experiment please raise your hand (don't get up) and the experimenter will come to you.

1. Please choose a computer with a screen that's turned on, and make sure no one is sitting directly next to you. Turn off your phone and put all your personal items away.
2. Log in on the computer with your university account
3. Open google chrome
4. Type in this URL: tiny.cc/GDM
5. Once all participants have arrived the experimenter will put a list of links into this document
6. You should click on the link with this in front of it:

P1 please click on the correct link

After you have fully finished the whole experiment:

7. Close the browser
8. Log out on the computer
9. Please give these instructions back to the experimenter
